

Framework for Learning from Home – Year 5

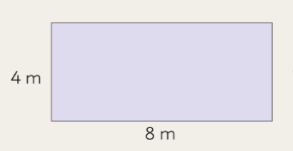

2021 Week 5

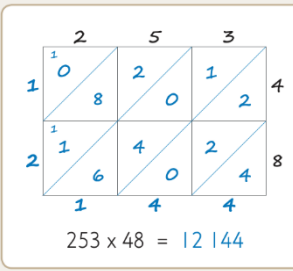

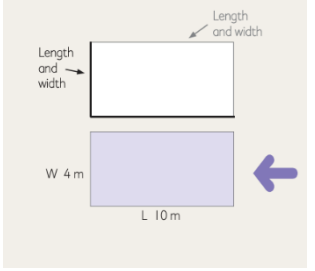

第五周 五年级在家学习大纲

For some of the below activities you may need your parents help. Show each completed activity to your parents to check.

	Monday 9 th August	Tuesday 10 th August	Wednesday 11 th August	Thursday 12 th August	Friday 13 th August
Morning 上午	<p>English 英文 Viewing: have a look at the stimulus below ‘Strength of a Thousand’ and write down 5 of your noticing. 查看: 查看下面 “千人之力量” 的图片, 并写下你注意到的五件事。 Writing: Using this story starter for ‘Strength of a Thousand’, continue the story. Remember to use your 7 Steps for Writing strategies to make your story engaging. answer these questions based on the stimulus. 写作: 使用 “千人之力量” 的这个故事开头, 接着写故事。记住使用 7 个写作步骤来使故事引人入胜。根据图片回答问题。 <i>Since she was young, Kate was different to normal people. It was only now</i></p>	<p>English 英文 Reading: Library ZOOM Session with Mr Philpott Mr Philpott 上课时间 10 am – Classes 5D, 5P, 5L and 5J 5D, 5P, 5L 和 5J 班级上课时间。 Join Zoom Meeting https://nsweducation.zoom.us/j/68251668283?pwd=WE00dUY4eEV3enFKeWJ4VGlnQXY1Zz09 10:30 am – Classes 5S, 5M and 5K 5S, 5M, 5K 上课时间: Join Zoom Meeting https://nsweducation.zoom.us/j/68406478658?pwd=ME4dCtOQ2MwV2ozNzdJT1BUZ25iZz09 Respond: using the stimulus from Monday ‘Strength of a Thousand’</p>	<p>English 英文 Reading: Read or listen to the news article of the day from https://www.kidsnews.com.au/ and complete the quick quiz related to it. Copy and paste the questions into your PowerPoint and complete them. 听读链接的新闻, 完成作业并将问题复制并粘贴到你的 PowerPoint。 Spelling: complete a task from the spelling grid using this week’s soundwaves word list. 拼写: 使用本周的声波单词列表, 完成拼写作业。 Respond: answer these questions based on the stimulus ‘Strength of a Thousand’. 回答: 根据图片 “千人之</p>	<p>English 英文 Reading and Responding: Read one chapter of a novel or text from your school magazine. 从学校杂志中阅读小说或课文的一章。 https://bit.ly/2UtJxKg Think about how the story you read made you feel. Write and make about a connection: text to text; text to world; or text to self. 你所读过的故事有什么感受。把故事联系写下自己的感想, 或给自己发短信。 Spelling: complete a task from the spelling grid using this week’s soundwaves word list. 完成拼写作业</p>	<p>English 英文 Reading: Listen to the Squiz Kids daily podcast: 收听 Squiz Kids 每日播客: https://www.squizkids.com.au/ Respond: Record the 5 most interesting facts. Why are they interesting to you? 写下 5 个最有趣的事实。为什么它们对你来说很有趣? Soundwaves: Complete one page of Unit 23 below and the online activities for this week’s unit. 完成第 23 单元的一页和本周单元的在线练习。 www.soundwaveskids.com.au Access code: sit815</p>

<p><i>though that her true powers were beginning to be realised.</i> <i>She was becoming the person she was born to be. It was her destiny.</i> Continue the story about 'Strength of a Thousand'. 用以上的故事开头，接着写， Spelling: Complete one page of Unit 23 below and the online activities for this week's unit. 拼写：完成下面第 23 单元的一页和本周单元的在线活动。 www.soundwaveskids.com.au Access code: sit815 Extension: 延伸作业 Please note, there is an extension word list. Write a paragraph with at least 10 words from this Extension list. Find the dictionary meaning of at least 10 words. 请注意，有一个延伸词列表。从这个列表中写一个至少包含 10 个单词的段落。找出至少 10 个单词的含义。</p>	<p>complete the following grammar activities: 回答：用星期一“千人之力”的刺激完成以下语法活动： <u>Sick Sentences</u> 病句分析 These sentences are 'sick' and need help to get better. Can you help? 1. Kate lifted the truck. 2. Kate touched the truck. 3. The metal creaked 4. She held it high 5. She felt incredible <u>Similes</u> 比喻 Can you think of similes to describe Kate's powers? 你能想出比喻来描述凯特的力量吗？ 1. She could run as fast as _____. 2. She could fly like a _____. 3. Her body was as strong as _____. 4. Her eyes glowed red like _____. Mr Poulos' Persuasive Writing Lesson: Week 5 Lesson 1A Mr Poulos 写作课 Look at Mr Poulos' PowerPoint and video instructions. Think about the topic: 先看 Mr Poulos 的 PPT, 然后思考以下问题 <i>Should we put our hand up in class.</i></p>	<p>力”回答这些问题。 1. What does 'destiny' mean? 2. What do you think Kate's destiny is? 3. How is she different to normal people? 4. How do you think she will use her powers? 5. How would you use such powers, if you had them? 6. Is Kate from Earth or a different planet? 7. How will other people react to seeing Kate's powers? 8. What will she do with the truck? Why has she picked it up? Mr Poulos' Persuasive Writing Lesson: Week 5 Lesson 1B 写作课 Look at Mr Poulos' PowerPoint and video instructions. 先看老师的 PPT, 思考以下问题 Think about the topic: <i>Should we put our hand up in class.</i> Choose whether you are FOR or Against this argument. Brainstorm your ideas and write your introduction and first paragraph</p>	<p>Mr Poulos' Persuasive Writing Lesson: Week 5 Lesson 1C 写作课 Look at Mr Poulos' PowerPoint and video instructions. 先看 Mr Poulos 的 PPT, 然后思考以下问题: Think about the topic: <i>Should we put our hand up in class.</i> Continue the writing you started yesterday by adding your second and third paragraph and your conclusion. 继续你昨天开始的写作, 添加你的第二和第三段以及你的结论。</p>	<p>Optional Extension Activity 'Strength of a Thousand' Imagine you have Kate's powers. Can you draw something you would do? 想象一下你拥有凯特的权力。你能画出你能做的东西吗？ .</p>
---	---	---	---	--

		<p>Choose whether you are FOR or AGAINST this argument. Brainstorm your ideas for your chosen side. On Wednesday and Thursday this week, you will complete your writing. Today you will just need to complete your brainstorm.</p> <p>选择你是支持还是反对这个论点。为你选择的那一方集思广益。你将在本周的周三和周四，完成你的写作。今天你只需要完成你的“头脑风暴”。</p>	<p>选择你是支持还是反对这个论点。“头脑风暴”你的想法并写下你的介绍和第一段。</p>

Strength of a Thousand

Unit 23

ir ur or er bird nurse world fern

List Words

burnt
burst
refer
prefer
person
perfectly
reverse
research
earthen
worse
further
surface
certain
curtain
concern
purchase
purpose
dessert
suburban
earliest
observant
conferred
germinate
circumnavigate
circumstance

Grapheme Chart

grapheme word

1 Colour the graphemes that represent **ir ur or er** in the List Words.

2 Go to the List Words for Unit 23. Count the sounds and identify all the graphemes in each List Word.

3 Write any other letters that can represent **ir ur or er** on the Grapheme Chart. Write one word example for each.

4 Colour words where you hear **ir ur or er** in each row.

ir tired circumstance dirtiest repair
ur suburban curtain honour courage
or worthwhile horizon worse force
er dessert desert concern neither
ear appear heart earthen research

5 Write List Words with **ir ur or er** in these positions to fit on the lines.

first second fourth fifth

6 Write words from the brackets to finish these sentences.

★ **Burst** can be a verb meaning *to break open*. **Burst** can be a noun meaning *a model or sculpture of the head and shoulders of a person*. **Farther** refers to *distance only*. **Further** can refer to *more time, information and so on*.

The balloon _____ when it hit the sharp corner of the day
_____ of a famous artist.

(bust, burst)

The delicious _____ was made from the fruit of the cactus
plant which grows well in the _____.

(desert, dessert)

I needed _____ information as I didn't know how much
_____ it was to the next village.

(farther, further)

Birds usually wake _____ than any other creature.

(earlier, earliest)

7 Unjumble the List Words in the brackets. Fill in the columns with the correct verbs.

Today...	Yesterday...	They have...	They are still...
bubbles (tsrub)	bubbles		
fires (urnb)	fires		
cars (veerrse)	cars		
subs (acefrsu)	subs		

8 Complete the table.

- ★ When adding **ed** and **ing** to words ending with **er**, we usually double the letter **r** when the grapheme **er** is representing **/ɪr/** or **/ɔr/**.

- 9** Read the purple message text and study the table beside it. **Complete** the sentences below with words from the table.

- ★ When comparing some adjectives, rather than adding **er** and **est** as in *earlier* and *earliest*, the words change completely. We do not say *gooder*, *goodest* or *badder*, *baddest*.

Base word	Added	Adding
refer		
prefer		
confer		
remember		
answer		
consider		

Adjectives (describing 1)	Comparatives (comparing 2)	Superlatives (comparing 3 or more)
good	better	best
bad	worse	worst
little	less	least
many	more	most
much	more	most

This painting is **good**. That one is **better**. The next one is the _____ of all in the competition.

Today's weather is **bad**. Tomorrow will be **worse** and the next day will be _____ of all.

I only ate a **little** of my lunch. You ate even **less** and Jan ate the _____ of the three of us.

Many people live in Queensland. **More** live in Victoria but New South Wales has the _____.

I didn't save **much** money. My sister saved _____. My brother saved the _____.

- 10 Build** word families with the following base words.

 Go to Helpful Hints for help.

purpose (ly, ful, less)	perfect (im, ly, ion)	observe (er, ant, ation)	certain (un, ly, ty)
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

Challenge

Find words formed from the Latin roots **circum** meaning *round* and **circ** meaning *a ring* in the circular coil.

Discuss with a partner how the meanings relate to each word.

Sound Waves 5 Printables © 2012 Firefly Education Pty Ltd

完成每格里的作业，把日期填上。

Word Work Grid

Complete each of the activities in this grid. Write the date you completed each activity on the line provided.

<p>Syllable Sort</p> <p>Write your spelling words in order from the least amount of syllables to the most. Words with the same number of syllables should be in alphabetical order.</p> <p>Date: _____</p>	<p>Odd One Out</p> <p>For each of your spelling words, write four words. One is your spelling word, two relate to your spelling word and one is the odd word out that doesn't fit with the other two.</p> <p>Date: _____</p>	<p>Wacky Words</p> <p>On a sheet of paper, write your spelling words in different directions, filling up the whole sheet. Use different colours and types of writing for each word.</p> <p>Date: _____</p>	<p>Word Detective</p> <p>Write three clues about each of your spelling words. Ask someone to try to guess your spelling words using your clues.</p> <p>Date: _____</p>	<p>Digging in the Dictionary</p> <p>Use a dictionary to find the definition and write a sentence for each of your spelling words.</p> <p>Date: _____</p>
<p>Rhyming Wheels</p> <p>Think of as many words as you can that rhyme with your spelling words.</p> <p>Date: _____</p>	<p>Alliteration</p> <p>Write a sentence for each of your spelling words using as much alliteration as possible.</p> <p>Date: _____</p>	<p>Sentence Smart</p> <p>Write a sentence for each of your spelling words.</p> <p>Date: _____</p>	<p>Story Time</p> <p>Write a story using as many of your spelling words as you can. Underline each of your spelling words.</p> <p>Date: _____</p>	<p>Sort Them Out</p> <p>Sort the words on your spelling list into three different categories of your choice.</p> <p>Date: _____</p>
<p>Word Search</p> <p>Create your own word search using all the words on your spelling list.</p> <p>Date: _____</p>	<p>Handwriting Hero</p> <p>Write out your spelling words in your very best cursive hand writing.</p> <p>Date: _____</p>	<p>Letter Lingo</p> <p>Write a letter to a friend. Use as many spelling words in your letter as you can.</p> <p>Date: _____</p>	<p>Words Within Words</p> <p>Make a list of as many smaller words as you can find from your spelling list.</p> <p>Date: _____</p>	<p>Code Breaker</p> <p>Use the code guide to make a code for each of your spelling words.</p> <p>Date: _____</p>

TeachStarter.com

SENSE COUNTDOWN

1. Sit or stand straight and still. Close your eyes or look downward.
2. Take three deep breaths in and out.
3. Open your eyes.

- Notice **five** things you can see.
- Notice **four** things you can touch.
- Notice **three** things you can hear.
- Notice **two** things you can smell.
- Notice **one** thing you can taste.

HEARTBEAT

1. Sit straight and still. Close your eyes or look downward.
2. Take three deep breaths in and out.
3. Place your fingers or hands over the part of your body where you can best feel your pulse (or heartbeat):
 - on the side of your neck, under your jaw
 - inside your wrist
 - over your heart.
4. Notice how quickly or slowly your heart is beating.
5. Think about your current feelings.

Do you think this feeling is connected to how quickly or slowly your heart is beating?

6. Without speaking, stand up and jump on the spot ten times.
7. Sit down and find your heartbeat again.

What changes do you notice? Is your heart beating faster or slower than you expected?
Can you notice any change in your breath?

8. Close your eyes and focus on your heartbeat until it slows down again.

Investigation 10 Radical renovation

Your family has moved into a new home. You are allowed to decorate your bedroom in the colours and design of your choice.

Your room must have a decorative frieze with a geometric pattern around the walls, and a tiled floor with a triangular pattern involving flips, slides and turns in the centre.

Get creative! Investigate which combination of colours and patterns makes for a radical renovation.

✓ Topics

Before you start the Investigation you need to know...

- | | |
|--|--|
| <input type="checkbox"/> NA7 Multiplication 3-digit x 2-digit.....p44 | <input type="checkbox"/> MG12 Using scale.....p106 |
| <input type="checkbox"/> MG4 Perimeter of rectangles.....p90 | <input type="checkbox"/> MG17 Flip, slide, turn.....p116 |
| <input type="checkbox"/> MG5 Area of rectangles.....p92 | <input type="checkbox"/> MG18 Enlargement properties of shapes.....p118 |

Understanding the Investigation

1 Read and plan.

Make sure you understand the meanings of: *radical*, *renovation*, *frieze*, *geometric*, *feature*, *decorative*, *actual*, *combination* and *represent*.

Read and discuss the rubric.

Download your Investigation plan. This will help you with the organisation and understanding of the Investigation.

Teacher note

- Comprehensive lesson notes, suggestions and resources are available in *iMaths 5 Teacher Book*.
- The BLM and Investigation plan for this Investigation can be downloaded from www.imathsteachers.com.au.

Materials

Using maths

2 Draw a floor plan.

Your bedroom measures 6 m by 4 m. To draw a floor plan on an A4 centimetre grid, you need to scale your bedroom measurements. Try making 1 cm (the length of one grid square) represent 1 m. You could also try making 1 cm represent 50 cm, or 1 cm represent 25 cm.

What would 1 cm need to represent, so that the floor plan will be a suitable size? This will become your scale. Accurately draw the floor plan on the BLM 10.1, and show your scale.

3 Calculate the area.

How much floor space does your bedroom have?

Calculate the area of your room and write it on the plan. Show your working.

4 Design the pattern using flips, slides and turns

Try out some triangular patterns that may look good on your tiled bedroom floor. They must include flips, slides and turns.

Decide the size of the feature and mark it on the floor plan. Colour the pattern to make an attractive feature.

5 Calculate the perimeter of the pattern.

The tiles of the pattern need a trim that goes all around the outside of the pattern. To do this you need to calculate the perimeter of the patterned feature. Show your working. Round the perimeter to the nearest centimetre. Then use the scale on your plan to work out the actual perimeter in centimetres.

6 Design the frieze.

Calculate the actual length of frieze required to create a border around the room. Record this on the plan.

On A4 paper or card, use geometric shapes, flips, slides and turns to design a 20 cm section of the frieze.

Reasoning and reporting

7 Display and explain.

Display your floor plan, calculations and frieze design.

Explain how you used flips, slides and turns in your designs.

What assumptions did you make about the room to help you calculate the length of the frieze?

imathskids.com.au

Go to imathskids.com.au –

The Investigation 10 area contains the Investigation plan, websites and BLM that you need to complete this Investigation.

Sample triangular patterned feature using flips, slides and turns.

Inquiry

Choose one of the following activities:

- include furniture to scale on your floor plan, or
- calculate the amount of paint you would need to paint this room.

BLM 10.1 Investigation 10: Radical renovation

iMaths 5 Investigation Plan

Student's name..... Due date.....

My group.....

Now that I have read through the Investigation, I am going to make a plan that should help me understand this Investigation.

Name of Investigation:

I understand that this Investigation is asking me to:

This Investigation might present some challenges. I may need to solve these problems in order to complete this Investigation:

I think these Topics are really important to this Investigation:

Topic	Purpose in this Investigation.
-------	--------------------------------

1	<hr/>	<hr/>
2	<hr/>	<hr/>
3	<hr/>	<hr/>

I believe I will have no problems with:

I think I may need some help with:

Select three words from the list in step 1. What do these words mean in the context of this Investigation?

Word	Meaning in this Investigation.
------	--------------------------------

1	<hr/>	<hr/>
2	<hr/>	<hr/>
3	<hr/>	<hr/>

iMaths Investigation Plan Student Book 5 © Firefly Education 2011

Extras are carried into the next place when necessary, then added after the next multiplication.

4 172 round down \rightarrow $\begin{array}{r} 4000 \\ \times 3 \\ \hline 12\ 000 \end{array}$ (estimate)

You can also use a calculator to check your answer.

Try this

- a**

$$\begin{array}{r} 3251 \\ \times \quad 3 \\ \hline \end{array}$$

(estimate)

b

$$\begin{array}{r} 1615 \\ \times \quad 6 \\ \hline \end{array}$$

(estimate)

c

$$\begin{array}{r} 8412 \\ \times \quad 8 \\ \hline \end{array}$$

(estimate)

d

$$\begin{array}{r} 3785 \\ \times \quad 5 \\ \hline \end{array}$$

(estimate)

e

$$\begin{array}{r} 2222 \\ \times \quad 7 \\ \hline \end{array}$$

(estimate)

f

$$\begin{array}{r} 8841 \\ \times \quad 2 \\ \hline \end{array}$$

(estimate)

- 5** A Toyota RAV4 has a mass of 1 590 kg.
A Toyota Landcruiser has a mass of 2 555 kg.
A Toyota dealer orders 4 RAVs and 3 Landcruisers.
What will be the total mass of all 7 vehicles?

Truckin' total: Brisbane to Sydney by road is 1027 km. Sydney to Canberra is 290 km. Canberra to Brisbane is 1331 km. A long distance truck driver does the Brisbane–Sydney–Canberra–Brisbane route five times a month. How far does the truck driver travel on this route each month?

NA7 Multiplication 3-digit x 2-digit

I'll show you two ways to multiply a 3-digit number by a 2-digit number.

1. Double and halve

To find the answer to the multiplication below, you double one number ($15 \times 2 = 30$) and halve the other number ($204 \div 2 = 102$).

$$\begin{array}{r} 204 \\ \times 15 \\ \hline \end{array} \longrightarrow \begin{array}{r} 102 \text{ (halved)} \\ \times 30 \text{ (doubled)} \\ \hline 3060 \end{array}$$

2. Split and multiply

When multiplying a number by a 2-digit number, multiply by the ones digit first, then multiply by the tens digit.

$$\begin{array}{r} 413 \\ \times 23 \\ \hline 826 \\ + 8260 \\ \hline 9499 \end{array}$$

Multiply by the ones digit first. $\rightarrow 1239$ $\leftarrow 1239$ $\times 20$
Then multiply by the tens digit. $\rightarrow 8260$ $\leftarrow 8260$
Then add the two answers. $\rightarrow 9499$

Try this one.

$$\begin{array}{r} 521 \\ \times 34 \\ \hline \end{array} \quad \begin{array}{r} 521 \\ \times 4 \\ \hline \end{array} \quad \begin{array}{r} 521 \\ \times 30 \\ \hline \end{array}$$

Tip

You can use a calculator to do these multiplications, and then use rounding and estimations to check your answer.

Try this

1 Use the double and halve strategy to find the answers to these.

a $\begin{array}{r} 264 \\ \times 15 \\ \hline \end{array}$ is $\begin{array}{r} \\ \times \\ \hline \end{array}$

b $\begin{array}{r} 102 \\ \times 35 \\ \hline \end{array}$ is $\begin{array}{r} \\ \times \\ \hline \end{array}$

c $\begin{array}{r} 326 \\ \times 45 \\ \hline \end{array}$ is $\begin{array}{r} \\ \times \\ \hline \end{array}$

2 Use the split and multiply strategy to find the answers to these.

a $\begin{array}{r} 231 \\ \times 23 \\ \hline \end{array}$ \leftarrow $\begin{array}{r} \\ \times \\ \hline \end{array}$ \times $\begin{array}{r} \\ \times \\ \hline \end{array}$

b $\begin{array}{r} 473 \\ \times 57 \\ \hline \end{array}$ \leftarrow $\begin{array}{r} \\ \times \\ \hline \end{array}$ \times $\begin{array}{r} \\ \times \\ \hline \end{array}$

3 When using the double and halve strategy to multiply numbers, you sometimes halve the 2-digit number to give a single-digit number. This makes it easier to multiply.

a $\begin{array}{r} 328 \\ \times 14 \\ \hline \end{array}$ is $\begin{array}{r} \\ \times \\ \hline \end{array}$

b $\begin{array}{r} 115 \\ \times 18 \\ \hline \end{array}$ is $\begin{array}{r} \\ \times \\ \hline \end{array}$

4 Nada needs 31 pieces of gold ribbon. Each piece of ribbon is 134 mm long. How much ribbon does Nada need to buy?

5 Suppose your class was raising money for a trip to the snow. The cost of the trip is \$325 per student. If there are 25 students in your class, how much will the class have to raise? Describe two ways you would use to work out this problem.

a

b

Problem solving task

Our leap problem: How many hours in a leap year?
Use the space provided in *iMaths 5 Tracker Book* to work out your answer.

Challenge

An age old problem: How many days have you lived on your twelfth birthday?
(Don't forget to add an extra day to the total for each leap year.)

NA8 Lattice method of multiplication

This method of multiplication is also known as the Gelosia Method. Napier's Bones also involves using the grid method of multiplication. It is a very old method which probably originated in Arabia or India, and was passed on through China to Italy and the rest of Europe. The method is easy when the grid has been drawn. To learn how to do it, follow the examples below.

Example 1: 27×34

1. Draw the grid.

2. Draw diagonals and write on numbers.

3. Multiply 7×3 . (21)

4. Multiply 2×3 . (06)

5. Multiply 7×4 . (28)

6. Multiply 2×4 . (08)

7. Add down the diagonals starting on the right. Regroup in the usual way.

8. Read the answer down the left and across the bottom of the grid.

$$27 \times 34 = 0918$$

Example 2: 253×48

Try this

1 Use the lattice method of multiplication to work out 324×63 .

What did the fish say when it swam into the wall?

Topic NA8

2 To solve the riddle, use the lattice method to work out the multiplications, then write the letter that matches the answer in the boxes below.

231×34

(A)

541×26

(O)

37×26

(H)

293×73

(M)

74×38

(D)

14 066	962
<input type="text"/>	<input type="text"/>

2812	7854	21 389
<input type="text"/>	<input type="text"/>	<input type="text"/>

Challenge

Time your times: Time yourself to complete each of these multiplications. Which method is quicker for you?

$$\begin{array}{r} 347 \\ \times 28 \\ \hline \end{array}$$

Time:

Time:

MG5 Area of rectangles

How many squares are on my waffle iron? You could count the squares one by one but I'm sure you can see a quicker way. What about $8 \times 4 = 32$?

Finding the area of a rectangle is as simple as multiplying the length of the rectangle by its width.

The formula for finding the area of a rectangle is: $A_{\square} = L \times W$

$$\begin{aligned} A_{\square} &= L \times W \\ &= 8 \text{ m} \times 4 \text{ m} \\ &= 32 \text{ m}^2 \end{aligned}$$

(Write the formula.)
(Replace letters with numbers.)
(Calculate the answer.)

Language reminder

When units of area are abbreviated to cm^2 and m^2 , they are always read as square centimetres and square metres, rather than 'centimetres squared' and 'metres squared'.

Try this

1 Complete the table.

	Rectangle	Length	Width	Area
a		7 cm	3 cm	
b		6 cm	2 cm	
c		6 cm	4 cm	
d		5 cm	3 cm	
e		8 cm	2 cm	

2 This house plan is drawn to a scale of 1:100. One centimetre represents one metre. Use a ruler to measure the dimensions of each room then calculate the area.

a Bedroom 1

$$\begin{aligned} &3.5 \text{ m} \times 4 \text{ m} \\ &14 \text{ m}^2 \end{aligned}$$

b Bedroom 2

c Bedroom 3

d Bedroom 4

e Kitchen

f Dining

g Lounge

h Family

i Bathroom 1

j Bathroom 2

k Toilet (WC)

l Laundry

m Garage

Challenge

Alternate areas: If the area of a rectangle is 24 cm^2 , what could the dimensions (length and width) be? List four possible answers.

MG4 Perimeter of rectangles

Perimeter is the distance around the boundary of a shape.

Rectangles have two lengths and two widths. If you measure only one length and one width you can work out the perimeter (P). Simply add the length and the width (L + W), then double (x2).

The formula for finding the perimeter of a rectangle is: $P_{\square} = (L + W) \times 2$

$$\begin{aligned} P_{\square} &= (L + W) \times 2 && \text{(Write the formula.)} \\ &= (10 \text{ m} + 4 \text{ m}) \times 2 && \text{(Replace letters with numbers.)} \\ &= 28 \text{ m} && \text{(Calculate the answer.)} \end{aligned}$$

Language reminder

perimeter = peri: around + metron: measure

Try this

- 1 Calculate the perimeter of these rectangles. Remember, add then double.

- 2 Calculate the perimeter of these swimming pools.

Problem solving task 1

Anika's Animal Nursery: Anika visits school fairs and carnivals with her baby animal nursery. She has 28 portable fence panels to make a rectangular nursery pen for the animals. Each fence panel measures 1 metre. Design all the possible rectangular pens using all 28 panels for a single enclosure. Use the space provided in *iMaths 5 Tracker Book* to work out your answer.

Problem solving task 2

Soccer field: The perimeter of our soccer field is 300 metres and the width is 50 metres. How long is the field? Use the space provided in *iMaths 5 Tracker Book* to work out your answer.

Challenge

Perimeter in pieces: Calculate the perimeter of this shape.

What countries are there on the continent of Asia?

- 1 Colour and label each of the continents on the world map below. Add in the North Point, a legend and a title for the map.

Asia is the largest continent in the world, covering approximately thirty percent of the earth's surface. Asia has the greatest population of all the continents. Over four billion people across more than forty countries live here. Asia has a variety of geographical features including mountains, plateaus, plains and deserts as well as freshwater and saltwater environments.

- 2 Write down the names of any Asian countries you have heard of or have visited.

- 3 Use the detective cards below to race your way around Asia.

Working in pairs, read the clues on each card to work out which Asian country it relates to. Find this country on the map of Asia on the following page. Label and colour this country.

Forty five billion pairs of chopsticks made each year.	Black sand desert	An island. Sits on the 80 degrees east longitude line.
An archipelago. Four main islands. More than 6,000 small islands.	Flag features a crescent and a star.	Tallest building in the world.
No chewing gum.	Hills made of chocolate.	Has the most rivers in the world.
Bengal tiger		Longest capital city name in the world.

- 4 Look at the list of Asian countries below. Use an atlas to help you find one country from each region and then colour and label it on the map.

Countries of Asia

North-east	South-east	South	Central	West		
China	Brunei	Afghanistan	Kazakhstan	Armenia		
Japan	Cambodia	Bangladesh	Kyrgyzstan	Azerbaijan		
Mongolia	Timor-Leste	Bhutan	Tajikistan	Bahrain		
North Korea	Indonesia	India	Turkmenistan	Cyprus		
South Korea	Laos	Iran	Uzbekistan	Georgia		
Taiwan	Malaysia	Maldives		Iraq		
Russia	Myanmar	Nepal		Israel	Palestine	Turkey
	Philippines	Pakistan		Jordan	Qatar	United
	Singapore	Sri Lanka		Kuwait	Saudia	Arab
	Thailand			Lebanon	Arabia	Emerites
	Vietnam			Oman	Syria	Yemen

- 5 Find some interesting facts about four countries in Asia and make detective cards for them. Share your card clues with a partner and see how quickly they can find the matching countries.

6

- a** Open Google Earth and find the Early Connectors section. (To do this, Select the Voyager icon then select Education, then scroll down to Explorers: Early Connectors).
Choose either Marco Polo, Ibn Battuta or Zheng He. Follow and investigate their exploration of parts of Asia.
- b** Make your own fact file about their journey. Include geographical features and places they came across along the way.

Phases of Matter

Matter is any physical substance that occupies space and possesses mass. All matter is made up of particles called atoms, or a combination of atoms called molecules. The three common states of matter are solid, liquid and gas. We call each of these a phase of matter.

Solids

Solids are substances that hold their shape and have fixed volumes. It is almost impossible for a solid to be compressed or forced to occupy a smaller space. Some solid substances include wood, ice, rubber, glass, metal and paper.

The particles (atoms or molecules) of a solid have a regular pattern and are packed together tightly. This creates a rigid, dense substance. Even though they continuously vibrate, the particles of a solid are not free to move around from one place to another.

Liquids

Just like solids, liquids have a fixed volume and cannot be easily compressed or squeezed into a smaller space. A liquid's particles are closely packed together. They have slightly more space between them than solids, and no regular pattern. This means they can move and slide around freely causing the substance to continuously change shape, depending on what kind of container it is being held in. Some examples of liquids include water, fruit juice, shampoo, blood and petrol.

Gases

Gases have no fixed volume and do not have a fixed shape. Particles of gas are held together by very weak forces, allowing them to move around quickly and freely due to the lack of a regular pattern holding them together.

Similar to liquids, gases do not have a fixed shape. Gases have the ability to expand or contract to fill the object or container they are in. Gases can also be compressed. This means they can be packed and squashed into smaller spaces. Some examples of gases include air, water vapour and natural gas.

1 What is matter?

2 What are the three common states of matter?

3 Shade **true** or **false**.

- a Solids hold their shape and have fixed volumes.
b Solids can easily be compressed into small spaces.
c Petrol is a solid.

true	false
true	false
true	false

4 List six examples of liquids.

5 Describe how the particles of a liquid are arranged.

6 Describe how the particles of a gas are arranged.

7 Can a gas be compressed? Explain.

8 Look around your school or classroom. Find substances not mentioned in the text that fit under the headings below.

Solid	Liquid

9 Can you think of another gas not mentioned in the text? Write it below.

Challenge Option

Research to find the melting point of glass and aluminium.
