

Framework for Learning from Home – Year 6

Term 3 – Week 9

	Monday 6 th September	Tuesday 7 th September	Wednesday 8 th September	Thursday 9 th September	Friday 10 th September
Session 1	<p>English</p> <p>Reading: read or listen to a news article from https://www.kidsnews.com.au/</p> <p>Respond: Choose one of the following:</p> <ul style="list-style-type: none"> answer the questions at the end of the article complete one of the activities at the end of the article <p>Soundwaves – Unit 27 Complete online activities using the online platform.</p>	<p>English</p> <p>Reading: Read a chapter from a book at home or use your school magazine or storyline online:</p> <p>https://www.storylineonline.net/</p> <p>Response: Create a poem about your favourite character. You can look for examples or poetry styles online: https://www.poetry4kids.com/lessons/poetry-writing-lessons/</p> <p>Soundwaves – Unit 27 Complete page 1 of Unit 27 student pages.</p>	<p>Wow Week: CRAZY HAIR DAY</p> <p>Today is Crazy Hair Day! Show your craziest hair style in Library!</p>  <p>You do not need to go out and buy anything but see how creative you can be with your hair using what you have at home!</p> <p>English</p> <p>Reading: Read a chapter from a book at home or use your school magazine or storyline online: https://www.storylineonline.net/</p>	<p>R U OK? DAY</p> <p>English</p> <p>Library Response Task (from Wednesday's Library Teams meeting with Mr Philpott)</p> <p>Soundwaves – Unit 27 Complete page 2 of Unit 27 student pages.</p>	<p>English</p> <p>Reading: Listen to the Squiz Kids daily podcast: https://www.squizkids.com.au/</p> <p>Respond: Record the 5 most interesting facts. <i>Why are they interesting to you?</i></p> <p>Soundwaves – Unit 27: Challenge (Optional)</p>

Monday 6 th September	Tuesday 7 th September	Wednesday 8 th September	Thursday 9 th September	Friday 10 th September
<p>Writing: View stories 'The true story of the three little pigs' and 'The three little wolves and the big bad pig.' Compare and contrast wolf and pig from the two stories.</p>	<p>Viewing: Watch 'Behind the News' on ABC Me or online at https://www.abc.net.au/btn</p> <p>Respond: Choose your favourite story. Write a detailed summary of the story.</p>	<p>Response: Make a collage. Find pictures online and make a collage that represents what happened in your story. Try to find pictures to illustrate the characters, settings and events.</p> <p>Library with Mr Philpott at 9:30am</p> <p>Maths NRICH activity <i>A Bit of a Dicey Problem</i> Students use problem solving skills to determine the chance of getting different results from rolling a range of dice.</p> <p>OC Maths</p> <p>Olympiad – Round 4 Students use problem solving skills to solve 5 questions as part of the Olympiad.</p>	<p>Writing: Using the Free/Wanted' poster exemplar for the wolf as a guide, students create a 'Free or Wanted' poster for the pig. Using persuasive and emotive language, convince your audience if the culprit should be imprisoned or freed.</p>	<p>History Students explore the theme of migration to Australia after World War 1 (1945): who migrated, why, and their experience of becoming part of the nation.</p> <p>Activity 7 - https://www.australianhistorymysteries.info/resource-zone/primary-immigration/activity-7.php</p>

Word Work Grid

Complete each of the activities in this grid. Write the date you completed each activity on the line provided.

<p>Syllable Sort</p> <p>Write your spelling words in order from the least amount of syllables to the most. Words with the same number of syllables should be in alphabetical order.</p> <p>Date: _____</p>	<p>Odd One Out</p> <p>For each of your spelling words, write four words. One is your spelling word, two relate to your spelling word and one is the odd word out that doesn't fit with the other two.</p> <p>Date: _____</p>	<p>Wacky Words</p> <p>On a sheet of paper, write your spelling words in different directions, filling up the whole sheet. Use different colours and types of writing for each word.</p> <p>Date: _____</p>	<p>Word Detective</p> <p>Write three clues about each of your spelling words. Ask someone to try to guess your spelling words using your clues.</p> <p>Date: _____</p>	<p>Digging in the Dictionary</p> <p>Use a dictionary to find the definition and write a sentence for each of your spelling words.</p> <p>Date: _____</p>
<p>Rhyming Wheels</p> <p>Think of as many words as you can that rhyme with your spelling words.</p> <p>Date: _____</p>	<p>Alliteration</p> <p>Write a sentence for each of your spelling words using as much alliteration as possible.</p> <p>Date: _____</p>	<p>Sentence Smart</p> <p>Write a sentence for each of your spelling words.</p> <p>Date: _____</p>	<p>Story Time</p> <p>Write a story using as many of your spelling words as you can. Underline each of your spelling words.</p> <p>Date: _____</p>	<p>Sort Them Out</p> <p>Sort the words on your spelling list into three different categories of your choice.</p> <p>Date: _____</p>
<p>Word Search</p> <p>Create your own word search using all the words on your spelling list.</p> <p>Date: _____</p>	<p>Handwriting Hero</p> <p>Write out your spelling words in your very best cursive hand writing.</p> <p>Date: _____</p>	<p>Letter Lingo</p> <p>Write a letter to a friend. Use as many spelling words in your letter as you can.</p> <p>Date: _____</p>	<p>Words Within Words</p> <p>Make a list of as many smaller words as you can find from your spelling list.</p> <p>Date: _____</p>	<p>Code Breaker</p> <p>Use the code guide to make a code for each of your spelling words.</p> <p>Date: _____</p>

Some activities and ideas for home for parents of primary and early learners

WOW WEEK ACTIVITIES

Write a song or rap about our school and perform it. You could write the words and record and upload it.	Do something kind as a surprise for someone in your family and watch them smile.	Talk about something that made you laugh today.	Choose a Peaceful Kids meditation https://www.peacefulkids.com.au/meditations.html
Lie down, close your eyes and listen to your breath. Imagine you are somewhere amazing. What can you see, hear, feel and taste?	To end the week host a karaoke night with your family and sing your favourite songs together.	Cook your favourite meal with your family.	Using art materials of your choice, draw, paint or create an artwork that would make a great mural on the back of our school hall.
Phone, Facetime, or write a letter to a friend. Tell them all your news. Ask them how they are.	Make a playlist of songs and have a family disco at home! Ensure everyone has the chance to choose their favourite songs.	Create a training video for your favourite sport. Teach us some of the skills associated with the sport of your choice. Maybe some drills or a modified game.	Create a workout or exercise video that will have everybody moving. You can add some music to it too.

Venn diagrams & probability

PROBABILITY FROM VENN DIAGRAM

TASK 1

Two intersecting sets

P(A) means: 'What is the probability of randomly selecting an element that is found in set A'.

Write the following probabilities as **fractions**.

- 1 $P(A) =$
- 2 $P(\text{both A and B}) =$
- 3 $P(A \text{ or B but not both}) =$
- 4 $P(B \text{ but not A}) =$
- 5 $P(\text{at least A or B}) =$
- 6 $P(\text{neither A nor B}) =$

TASK 2

Three intersecting sets

The diagram shows the number of people who own a cat (set C), a dog (set D) and/or a fish (set F).

- 1 How many people are included in these results?
- 2 A person from this group is selected at random. Using **fractions**, determine the probability that the person:
 - a does not own a cat, dog or fish
 - b owns all three types of pets
 - c owns a cat
 - d only owns a cat
 - e owns at least two types of pets
 - f owns only one type of pet
 - g owns a dog and a fish but not a cat

Education

Race Around Australia is proudly brought to you by the [School Sport Unit](#).

A Bit of a Dicey Problem

Age 7 to 11
Challenge Level

Look at these two dice. If you add together the numbers of dots on them, the total is 2.

When you roll two ordinary six-faced dice like these and add together the two numbers, what results could you get?

Do you have more chance of getting one answer than any other?

If so, what is that answer? And why?

What if you use a dice with 10 numbers on, like these?

What answers could you get now?

Do you have more chance of getting one answer than any other?

If so, what is that answer? And why?

Now try with more dice or a mixture of dice. What do you notice now?

APSMO

2021 : DIVISION J
WEDNESDAY 28 JULY 2021

OLYMPIAD

4

Total Time Allowed: **30 Minutes**

- 4A.** Four students are playing a multi-level video game.
Leo is playing the first level in the game.
Ralph is six levels above Leo.
Mike is two levels below Ralph.
Don, who is playing the last level of the game, is five levels above Mike.
How many levels does the game have?

- 4B.** The set of digits {1, 3, 7} is being used to make different 3-digit numbers.
Each of the three digits can only be used once in the 3-digit number.
For example, the number 113 cannot be made because the digit 1 has been used twice.
What is the sum of all the possible 3-digit numbers that can be formed?

- 4C.** Quintin is using the three different shaped tiles shown to tile his kitchen floor.
Each tile is composed of 5 identical squares and has an area of 2000 square centimetres.
The floor is a rectangle 10 metres long and 6 metres wide.
What is the smallest number of tiles Quintin will need in order to tile his floor?

- 4D.** Jenna has ten 5c coins, ten 10c coins and ten 20c coins.
She chooses three of these coins and adds them together to find the total amount.
How many different total amounts could she get?

- 4E.** Six years ago, Alan's age was 4 times Bernard's age.
Two years ago, Alan's age was 3 times Bernard's age.
How many years from now will Alan's age be 2 times Bernard's age?

Write your answers in the boxes on the back.

← Keep your answers hidden by folding backwards on this line.

PROBABILITY FROM VENN DIAGRAM

TASK 1 Two intersecting sets

P(A) means: 'What is the probability of randomly selecting an element that is found in set A'.

Write the following probabilities as **fractions**.

- 1 $P(A) =$
- 2 $P(\text{both A and B}) =$
- 3 $P(A \text{ or } B \text{ but not both}) =$
- 4 $P(B \text{ but not A}) =$
- 5 $P(\text{at least A or B}) =$
- 6 $P(\text{neither A nor B}) =$

TASK 2 Three intersecting sets

The diagram shows the number of people who own a cat (set C), a dog (set D) and/or a fish (set F).

- 1 How many people are included in these results?
- 2 A person from this group is selected at random. Using **fractions**, determine the probability that the person:
 - a does not own a cat, dog or fish
 - b owns all three types of pets
 - c owns a cat
 - d only owns a cat
 - e owns at least two types of pets
 - f owns only one type of pet
 - g owns a dog and a fish but not a cat

PROBABILITIES FROM TWO-WAY TABLES

The two-way table shows the numbers of books in a home library with certain characteristics.

Books in a home library			
	Fiction	Non-fiction	Totals
Hardcover	23	55	78
Paperback	71	18	89
Totals	94	73	167

Write each of the following probabilities as a fraction.

- 1 If a book is selected at random **from the library**, what is the probability that it is:

a a hardcover?	b a paperback?
c fiction?	d non-fiction?
e fiction and paperback?	f non-fiction and paperback?
g fiction and hardcover?	h neither fiction nor hardcover?
i either fiction or paperback?	j either non-fiction or paperback?

- 2 **Challenge:** If you have a hardcover book in your hand, what is the probability that it is fiction?

- 3 **Challenge:** If you have a fiction book in your hand, what is the probability that it is hardcover?

WORKING WITH TWO-WAY TABLES

TASK 1

Read a two-way table

Books in a home library

	Fiction	Non-fiction	Totals
Hardcover	23	55	78
Paperback	71	18	89
Totals	94	73	167

- How many hardcover books are non-fiction? _____
- How many fiction paperbacks are in the library? _____
- How many fiction books are in the library? _____
- How many hardcover books are in the library? _____
- How many books are in the library altogether? _____

TASK 2

Complete the two-way tables

Use the given information to complete each two-way table.

1

	A	Not A	Totals
B	7	12	
Not B	9	5	
Totals			

2

	A	Not A	Totals
B	46		
Not B		27	91
Totals			152

TASK 3

Conduct a survey

Conduct a survey where the results can be recorded in a two-way table. Your survey should consider two traits or conditions, for example:

- brown hair (yes or no) – blue eyes (yes or no)
- likes chocolate (yes or no) – likes ice-cream (yes or no)
- catches a bus to school (yes or no) – lives more than 3 km from school (yes or no)
- male or female – owns a bicycle (yes or no)

For each person surveyed, place a tally mark in only **ONE** box in your table. Complete the totals for the table and write at least four questions that can be answered from the table.

Deck 1

The RAA UNO workout

Click each image for exercise technique instruction

10 jumping jacks

5 plank jacks

5 squats

8 mountain climbers

15 secs high knees

8 lateral jumps

7 lunges

5 V sits

Draw 2 cards at a time and complete the exercises.
Each completed card = 50m!
