Support Unit- Living Skills Program

Dear Parents and Carers,

Each week the Support Unit classes participate in a living skills program. This program is an important part of your child's learning and helps to develop skills in food preparation, nutrition, home care and safety and personal health and hygiene.

The cost of the program is **\$15.00** for term 4, which is used to purchase cooking ingredients, toiletries and cleaning equipment for the kitchen.

The living skills program supports the teaching of outcomes from a number of NSW Syllabus including: Mathematics, English, Science and Technology and PDHPE.

If your child has any food allergies/ intolerances or dietary restrictions, please provide that information on the slip provided and return to your child's class teacher.

Payment of \$15 has been included as part of the Term 4 invoice and needs to be received by Friday 15th November. Please return signed note as soon as possible to your child's class teacher.

Thank you for your co-operation and support.

Mr Mark Steed
Principal

Mrs Nicole Moore
Assistant Principal Support Unit

Hurstville Public School

Living Skills Program

I give permission for my child _____ of class _____

to participate in weekly living skills activities including cooking.
